

# OLUWABUKOLA ADESINA

## SOFTWARE QUALITY ASSURANCE ENGINEER

**Location:** Nigeria | [oluwabukolamiadesina@gmail.com](mailto:oluwabukolamiadesina@gmail.com) | [linkedin.com/in/oluwabukola-adesina](https://www.linkedin.com/in/oluwabukola-adesina)

**Portfolio:** [oluwabukolaadesina.name.ng](http://oluwabukolaadesina.name.ng)

---

## PROFESSIONAL SUMMARY

Experienced Software Quality Assurance Tester and Engineer with expertise in manual and automated testing and user experience research. Skilled in designing, executing, and managing comprehensive test plans to ensure high-quality software delivery across web and mobile platforms. Proficient in bug tracking, API testing, performance testing, and utilizing tools such as Jira, Trello, Postman, Selenium, SQL, Scandium and Jmeter to streamline testing processes and improve product stability. Strong leadership abilities with a proven track record of guiding QA teams, fostering collaboration, and mentoring junior testers to enhance their technical skills and testing effectiveness. Committed to delivering reliable, user-centered software solutions that meet both business goals and end-user expectations.

---

## WORK EXPERIENCE

### Quality Assurance Engineer

EaziPay | August 2025 - Till date

- Successfully reduced bug leakage to production by over 90%, significantly improving product reliability and user satisfaction.
- Conducted functional, regression and end-to-end testing to validate new features and identify defects before production releases.
- Designed and executed test cases based on product requirements, increasing test coverage and reducing missed defects.
- Tested APIs using Postman with GraphQL queries, validating backend responses and ensuring smooth data flow across the platform.
- Monitored application performance post-deployment and reported critical issues to the development team for quick resolution.

- Participated in sprint planning, daily standups, and release retrospectives as part of the Agile development process.

### **Lead Software QA Engineer**

LantanTech | April 2025

- Designed, executed, and maintained both manual and automated test cases, focusing on detecting defects early and ensuring efficient regression testing.
- Collaborated closely with developers, product managers, and UX designers to clarify requirements, reproduce bugs, and prioritize fixes based on impact and severity.
- Identified, documented, and tracked software defects using bug tracking tools, following up rigorously to guarantee timely resolution before release.
- Advocated for end-users by validating real-world application scenarios, usability, and overall user experience, ensuring the software delivers value and reliability in production.

### **Lead Software Tester**

FoodbayTech | April 2023 – Mar 2025

- Designed and implemented test cases and stress testing scenarios.
- Led end-to-end performance testing initiatives, identifying critical system limitations and recommending optimizations.
- Performed functional, regression, and performance testing to identify software defects and ensure compliance with business requirements.
- Participated in design and code reviews to provide input from a testing perspective

### **Software Tester**

MyMTNpicknfix | Jan 2024 – Feb 2025

- Verified API integrations and payment gateway functionality to ensure a secure and reliable experience for users submitting repair requests.
- Helped reduce post-deployment bugs by 60% through meticulous manual testing and collaboration with the development team.
- Played a key role in the successful launch of Mymtnpicknfix and Airtelpicknfix which serves thousands of users monthly for device repairs and support.

### **Software Tester**

AirtelpicknFix | April 2024 – Feb 2025

- Created and executed comprehensive test plans, test cases, and test scripts based on product requirements and user stories.

- Conducted end-to-end testing of core functionalities on both web and mobile platforms to ensure seamless user experience for telecom customers booking device repair and trade-in services.
- Played a key role in the successful launch of Airtelpicknfix, which serves thousands of users monthly for device repairs and support.

### **Lead Software Tester**

Picknfix | Oct 2023 – Feb 2025

- Led the QA strategy for web and mobile applications, managing a team of software testers.
- Conducted performance testing using blazemeter, simulating real-world user traffic to identify bottlenecks and optimize system performance.
- Developed and executed functional, regression, and performance test cases to validate software stability.
- Used Jira and Clickup for bug tracking ensuring seamless functionality.
- Conducted extensive software testing, preventing critical defects before release.

### **Freelance Software Tester**

Digivante | Feb 2024 – Mar 2025

- Executed over 250 test cases to validate software functionality across multiple platforms.
- Conducted manual and performance testing to ensure application stability.
- Had over 96% test case approval rate and 80% Functional issues approval rate

### **User Researcher & Software Tester**

Varens SoftTech | Dec 2020 – Sept 2024

- Conducted usability and functional testing to enhance UI/UX consistency.
- Developed detailed test plans, test cases, and checklists derived from functional specifications and user stories, covering UI/UX, data integrity, and cross-platform consistency.
- Created wireframes and prototypes while executing test cases for software validation.
- Conducted user research via surveys and interviews, improving software usability.
- Executed end-to-end manual testing across web and mobile interfaces to validate core workflows, farmer sign-up, produce listings, quality-inspection modules, job/service matching, and order fulfillment.

## SKILLS

**SOFTWARE & QA:** Functional Testing | Regression Testing | Performance Testing | Manual Testing | Automation Testing | Prompt Engineering | Bug Tracking | Defect Management | Test Case Execution | STLC Database Testing | API Testing | User Research | Agile Methodologies | Risk Assessment | Quality Control | Data annotation | Smoke Testing | Sanity Tester | AI Output Tester

**TECHNICAL SKILLS :** Tools: Jira | Trello | ClickUp | Postman | Neoloads| SQL | Github | Blazemeter | TestRail | Jmeter | Google Workplace | Scandium | Selenium Webdriver

**SOFT SKILLS:** Critical Thinking | Attention to Detail | Problem-Solving | Collaboration | Time Management | Client Management | Team Management | Flexibility | Multitasking | Detail Oriented

---

## EDUCATION

**Bachelor's Degree | Family, Nutrition, and Consumer Science**  
Obafemi Awolowo University – Nigeria

---
